“Be the change that you want to see in the world.”

Self-Introduction

I'm Liu Yitong, an undergraduate student at Tsinghua University. I graduated from The High School Affiliated to Renmin University of China (RDFZ) in middle school, and was admitted to the Department of Automation at Tsinghua University in September 2025. In the second semester of my freshman year, I joined the Tsinghua University Tong Class and served as the technical committee member of the class.

I have a sincere enthusiasm for acquiring professional knowledge in the field of AI. In addition to this, I also have other hobbies, such as running or playing the guitar. I believe I can efficiently complete the tasks related to research, and I also wish that I can make some achievements in the field that interests me in the future.
